# RMC Multi-Use Wiping System

# RMC Multi-Use Wiping System

Offering a solution to help reduce the risk of cross contamination in a sanitary and convenient delivery system. RMC Multi Use Dry wipes gives you the flexibility to use with many RMC products including Disinfectants and Sanitizers which best fit your needs.

For use in Hospitals, nursing homes, schools, offices, fitness/athletic facilities/ tanning and message spas, food establishments, animal care facilities. Anywhere Disinfecting, Sanitizing or Deodorizing are important.

## 2 Bucket Starter Kits Includes:

- 2 re-usable 2.5 gallon portable buckets with lids
- 350 wiper roll included with each bucket (RMC product purchased separately.)
- Wipes made with Spunlace: Strong when wet and very soft
- Resealable center pull tab
- Secondary RMC product labels pre-applied to buckets

## Easy to Use

1. Load roll of the dry wipes into re-usable bucket
2. Pour in 2 qts of ready to use solution over the roll of wipes.
3. Thread the first center pull wiper through the lid and close

## Wiper refills: 6 rolls of 350 wipes per roll (8"x7" wiper)

- Single use wiper reduces the risk of cross contamination
- Durable, non-linting, soft & strong spunlace wiper to clean any smooth or rough surface effectively
- Engineered to create a strong wet wiper that can be used with any RMC product
- No quat binding – quat binding may occur when the active ingredient (quaternary ammonium chloride) becomes attracted and absorbed into wiper material. This is because quats are positively charged ions and certain textiles are negatively charged. The result is that a percentage of the quat does not end up on the surface it is supposed to be disinfecting.
