

Checklist to keep your washrooms open and working during COVID-19

HELPING YOU KEEP YOUR BUSINESS OPEN SAFELY TO 'PROTECT' YOUR CUSTOMERS & EMPLOYEES
CHECKLIST TO DISCUSS WITH YOUR EMPLOYEES AND OR CUSTOMERS:

- Discuss the policies and procedures that you have set up within your company related to
 - Hand Hygiene
 - Disinfecting touch points and surfaces
- Inform employees that all their hygiene requests will be reviewed and valid concerns will be adhered to. Ensure them that all their inquiries regarding hygiene will be handled appropriately
- Ensure that all public places and high traffic areas have appropriate signage that educates patrons and employees of hygiene measures within the premises.
- With the use of Social media update your employees and customers of the hygiene measures practiced during this pandemic.

CHECKLIST TO FOLLOW WITHIN YOUR WASHROOM AND SURROUNDING HIGH TRAFFIC AREAS:

- Install Hand Sanitizing stations in various locations throughout the facility, especially in high traffic areas.
- Request your RMC Hygiene Expert to discuss proper cleaning and disinfecting applications with the designated staff at your facility.
- Order enough Sanitizer and Disinfectant so that you do not run out of these essential products. Make sure that you only get health Canada and ACC approved products.
- Ensure that each washroom is equipped with proper hand washing signs to remind everyone of safe and proper hand washing procedures, in your facility
- Install a feminine Hygiene waste disposal unit in each washroom for safe and clean disposal of Sanitary pads.
- Call your WellBeing Hygiene expert at RMC to go over your Washroom Sanitation and Hygiene program with you for your peace of mind at 1.888.336.7509

Call 1.888.836.1633 to speak with an RMC Hygiene Expert.
