Source: Healthy School Environment & Enhanced Educational Performance

"The reason why we chose to use Rochester Midland products was because they had the highest number of products with highest percentages of bio based materials contained in those products. We also reviewed the health ratings from the hazardous materials health identification system and the national fire and protection association. RMC had the best average health rating system after all the manufacturers we reviewed."

### - Rutgers State University

"Rochester Midland did the training with our employees, they educated us on some of the things we weren't aware of about green cleaning and probably most importantly, it wasn't about selling something to us, they really wanted to educate us."

### - Rochester Institute of Technology
